WEATHER BULLETIN.
WASHINGTON, Sept. 12.—For lower Michigan—Fair, preceded tonight and early Wednesday morning by showers, winds becoming southeasterly, slightly warmer.

DEATH OF M. S. CROSBY.

MARSHALL S. CROSBY is dead. Thousands of hearts will throb with grief at this announcement, and the tears will spring to thousands of eyes. Mr. Crosby had from his youth until the present time occupied a peculiar field in the moral, social, political and business life of Grand Rapids, and his passing forth from among us comes to all in the nature of a personal loss. In politics Mr. Crosby was an ardent republican. He was always an active worker in state as well as local politics, and in his death the republican party of Michigan loses a leader whose counsel was ever wise. He had held several offices of high honor and responsibility, and always with fidelity to the trust reposed in him. In 1873 he was elected a member of the state senate, and attained a high position among the members of that body. In 1881 he was elected lieutenant governor of the state, and two years later re-elected, although the head of the ticket, ex-Governor Jerome, was defeated. Mr. Crosby's name was also mentioned for United States senator, while in the office of lieutenant governor, and he had a very strong following in the legislature. In political affairs Mr. Crosby was essentially a clean man. He never stooped to trickery of any description, and the advancement he received was secured by his ability and force of character.

In religious matters Mr. Crosby was a tower of strength to every good cause. He was identified with the work of the Y. M. C. A. and the Fountain street baptist church the greater part of his life. In the Sunday school, of which he was for many years superintendent, his love will be keenly felt. The younger members of the baptist church had largely grown into their religious life under his teaching, and their mourning will be deep and sincere.

Mr. Crosby was one of the men who have made Grand Rapids. Possessed of ample means he has always been liberal in aiding manufacturing industries that sought a foothold here, and at the time of his death was interested in a large number of corporations. Always possessed of good judgment, his advice and energy have communicated the spirit of success to those industries, and they are among the most prosperous in the city. Mr. Crosby possessed a high sense of business honor, and a dollar made dishonestly never entered his pocket.

The family of the deceased are assured of the sympathy of all the thousands who knew and admired the dead husband and father. The afflicted children have the consolation of knowing that they inherit untold the honorable name that Marcus S. Crosby inherited from a line of honorable ancestors, and the community feels assured that the generation which must now take up the mantle thus suddenly laid down will wear it in a manner to transmit to their posterity the good name of those who have passed away.

FOLLOWERS OF MACCABEES.

People who have heretofore supposed that the order of the Maccabees was small in numbers because young in years had their eyes opened yesterday, and many such confessed to their surprise. The splendid parade that marched along our streets was a revelation to even those who were prepared for a grand demonstration. Certainly the members of the order could hardly have expected to make such a parade. The uniforms, marching, style and appearance were all a revelation.

The order of the Maccabees is entitled by numbers, equipment, training and character to stand in the foremost ranks of the secret societies of the state. As far as Grand Rapids is concerned they are rated first without debate and without division. We saw them the palm cheerfully and gladly.

The ladies of the Maccabees also made a fine appearance, and fully demonstrated the fact that women are as capable of carrying on secret societies as men. Their entertainment was most delightful and the speech-making up to a high standard. At Lockerby hall the brave knights and their ladies met on a level, and passed away the fleeting hours in dancing and laughter. The hall was beautifully decorated and should remind our guests that Grand Rapids possesses the only large assembly hall in the state. The scene was beautiful one and calculated to gratify the social pride of the knights and their ladies.

Today the Maccabees will attend to the routine work of the two orders. There is much to be disposed of, and no time can be wasted. THE HERALD bids

them enjoy themselves as much as possible, and by all means decide to hold their future meetings in Grand Rapids.

CONGRATULATIONS.

It does not necessarily follow that because a local bank now offers to advance to the city money to meet its bond issue due October 1, that bankers in general, or any bank in particular, should be criticised for not accommodating business men and manufacturers during the past two or three months. The occasion is one for congratulation rather than criticism. Every good and loyal citizen must feel a sense of relief that some one has come to the rescue of the municipality.

The financial credit of an individual or corporation is a thing not usually counted at its full value. Men who manage large financial interests have learned to value credit far more highly during the past three months than they did during financial prosperity. So might have been the situation with the city. Had the municipality allowed \$25,000 of bonds to mature, with no provision for payment, our city fathers, when they, in the future, offered for sale another series of bonds, would have learned what the loss of credit means.

It is not at all probable that the National City bank has this money in its vaults waiting for investment. It is more than probable that the bank will be obliged to negotiate for and borrow the money from New York or Chicago with which to pay the bonds when presented. It is more than likely that in the present condition of the money market, the bank will be obliged to pay some per cent per annum for the money it loans to the city at eight per cent. The bank will receive small pay for its trouble. But the president of the bank, Hon. Thos. D. Gilbert, has ever taken a great interest in the city's financial welfare and to his desire to save the city's credit must we look for the motive which prompts the offer of the bank at this time. This statement of the case may not be relied by those who appear to think the city's financial standing cannot be injured, but at this juncture these same officials are under great obligations to Mr. Gilbert and his bank.

WORSHIPPING ONE GOD.

Strange it would be, and possibly a shock to some excellent but narrow-minded sectaries, if the congress of religions now deliberating in Chicago should develop the fact that all the different sects and schisms were groping blindly at times and impotently, perhaps toward the same fountain-head of eternal power.

There is nothing preposterous about the idea, and why shouldn't it be true? We are all—Christian or Buddhist, Jew or Confucian—children of the same Father. Our creation was the election of the same divine love, and our progenitors walked side by side for numberless centuries until the parting of the road came, when one branch remained in Asia, another went into Africa and the third journeyed toward Europe. What each has become in the moral world is largely the result of environment and education. A bias toward religion is uniform in the human breast. It is not the monopoly of any race or clime. Admitting that this is true, is it not in keeping with our knowledge of God as a loving Father to believe that He has revealed himself to all peoples so far as their mentality permitted a conception of his majesty and power?

Investigation of the various faiths of earth develops the fact that much of the image or idol worshipping among Pagans really carries with it a conception of something greater and grander behind the hideous models of wood or stone. This is, perhaps, more often chaotic, but there is good reason to believe that it exists. It is one of the most hopeful signs of the universal domination of christianity that this sentiment is implanted in the breasts of even the poor savages. The fittest survives in everything, and certainly this law will hold good in religion. Dominion has been given to the Christian church, and it must drive out the awful errors that wrap about the little seed of true religion no bigger than a grain of mustard in the hearts of the sons of men.

CONFERENCE is a thing of the past, and all the departing trains yesterday carried ministers to their homes. Many of them go to pack up their belongings and seek a new home where the bishop has assigned them. It will be occasion for congratulation that the Rev. A. M. Gould is to remain in charge of the Division Street church another year. Mr. Gould has accomplished a grand work here and his removal would be a source of regret.

OFFICERS of the Kent County Fair association feel full assurance of the success of their meeting. Visitors at the grounds yesterday were greatly surprised at the goodly array of exhibits. The buildings are all practically filled, and the quality of the exhibits could not be excelled.

ONE of the features of yesterday's conference was the resignation of the Rev. J. W. Arney, the horse loving Saranac preacher, from the Methodist ministry and his withdrawal from the church. This destroys a fruitful source of gossip for the newspapers of the country.

EVA MANN, the notorious woman who ruined and brought Robert Ray Hamilton to his grave, is again married. This time she is Mrs. Edward Hilton and her husband is the proprietor of a cheap theatrical boarding house.

WORKERS too delicate to mix bread for John's dinner stood on the street for an hour yesterday afternoon and held twenty pounds of baby in their arms to watch the parade go by.

CAUSE OF THE PANIC

Speculative Deals and Fear of a Tariff Revision.

BANKS LARGELY RESPONSIBLE

Sensate Mitchell Discussed Causes of Monetary Stringency, Denying Sherman Act Responsible for It.

WASHINGTON, Sept. 12.—In the senate today a letter from the treasury department in response to a resolution inquiring as to the redemption of treasury notes in silver, etc., was read. It states that \$1,743,574 of treasury notes issued under the Sherman act have been redeemed in silver coin in August and September; that \$30,087,185 silver coinage has been minted with a gain or shortage of \$6,691,108, and that the remainder of the bullion purchased under the Sherman act has not been coined.

Mr. Stewart's resolution as to senators being stockholders in national banks went over until tomorrow by unanimous consent.

The repeal bill was taken up, and Mr. Mitchell addressed the senate in opposition to it.

Cause of the Panic.

He denied that the Sherman act had been the cause of the panic. The causes leading to it were in part world wide and their origin not in this country, but in speculative dealings between London bankers and the people of South America and Australia, which brought ruin to the shores of large moneyed institutions. The fear of tariff revision and of the inauguration of a free trade policy had also much to do with the panic. The trouble was in a very large measure started by the banks, the agitation starting with the bankers of England, thence to Wall street, boards of trade and chambers of commerce throughout the country. International bi-metalism was impossible, he said. England was wedded to the gold standard and was not willing to even discuss the question of bi-metalism.

Mr. Hawley declared himself for the pending bill, first, last and always. He emphatically denied that repeal would result as had been stated, in the total destruction of one-half of the currency of the world. All senators expected to continue the use of silver money, liberally, as far as it could be done, without recognizing silver mono-metalism. Senators Mitchell, Teller and Stewart were drawn into the discussion, but they yielded to a motion to go into executive session, after which the senate, at 5:15, adjourned until tomorrow.

GIVEN MORE POWER.

Chippewa Indians Were Dissatisfied With Land Arrangements.

MY. PLEASANT, Mich., Sept. 12.—Chippewa Indians in Isabella county have long been dissatisfied with the safeguards thrown about their land. They were not considered competent to dispose of it, and could not without the approval of the commissioner of Indian affairs. Saturday the Indians elected five commissioners from the tribe, whose approval will be sufficient hereafter in all contemplated land sales. They are Joseph Bradley, Peter Bennett, Philip Gruett, Andrew Jackson and Elijah Pilchor. This choice gives general satisfaction to the Indians and whites alike.

SUED FOR MALPRACTICE.

William Van Etten Wants \$3,000 From Dr. Huizinga.

HOLLAND, Mich., Sept. 12.—This afternoon a warrant was served upon Dr. J. G. Huizinga of this city for malpractice upon William Van Etten of Holland township. The complainant wants damages to the amount of \$3,000. James E. McElrath of Grand Rapids is attorney for the plaintiff. The doctor and his wife were intending to leave for Arabia this evening as medical missionaries. A large farewell reception was tendered them on Monday evening at the First Reformed church.

Laudanum in His Beer.

NILES, Mich., Sept. 12.—James Callaghan, owner and driver of the Niles sprinkling cart, took laudanum yesterday afternoon for the purpose of committing suicide. Mr. Callaghan had been drinking and today his wife would kill himself. Callaghan went into a saloon for a glass of beer and while there took the laudanum. Medical aid was summoned, but he died last night about 8 o'clock. He leaves a widow and several small children in poor circumstances.

Institute Again Opened.

LANSING, Mich., Sept. 12.—The first meeting of the Central Michigan Congregational Institute, after the vacation recess, was held yesterday in Plymouth church. Rev. J. E. Reitzel of Oaxaco read a paper on "Recent Lights on Ancient Monuments," and Rev. William McLean of Grand Lodge on "The Use of Music in Divine Worship."

Boats and Houses Burned.

BENTON HARBOR, Mich., Sept. 12.—Charles Miller and Frank Lamphere were badly burned yesterday while handling gasoline in the boat house. The spilled gasoline took fire from a cigar stub, causing an explosion. Three boats and two boat houses were burned up, with loss of about \$200.

Michigan Pensions.

Release and increase—Freedom Gardner, Traverse City, Grand Traverse county. Increase—George D. Mosher, Rockport, Kent county. Original, Wayne county. Survivors of Indian war—George F. Blair, Bronson, Branch county.

German School Opened.

SAGINAW, Mich., Sept. 12.—The German school building opened today regardless of the decision of the court on the injunction. The German society immediately adjacent tendered the use of its closets to the school authorities pending the settlement of the trouble.

Crushed by a Log.

DECATUR, Mich., Sept. 12.—George Kruse, an old and respected resident of this village, was killed today by a log which he was loading rolling upon him. He had been a resident of Decatur for thirty years.

No Jury Secured.

HILLENDALE, Mich., Sept. 12.—A jury has not yet been secured in the Fogleman case. The original panel has been exhausted and two new men were summoned this morning.

Postoffice Robbed.

CHARLESTON, Sept. 12.—The postoffice was burglarized last night, the safe

broken open and \$300 in stamps and \$300 in cash taken. No clue.

AMUSEMENT NOTES.

The visiting Maccabees from the interior of Michigan are fortunate in having the opportunity, which is presented to them by Manager Powers, of seeing that great actor who will begin a two evening's engagement tomorrow in his new production of "Faust." In many respects Mr. Morrison is the best actor on the stage today. In style and delivery he is very much like the late Edwin Booth. Mr. Morrison opened the Detroit opera house season Monday evening, and it was the most auspicious opening in the history of that theater.

Hanson's beautiful "Fantasma," now in its tenth season, will be the attraction at Powers' Saturday and Sunday evenings. This fairy spectacle has been dressed with fresh scenery and many new tricks, tricks which delight the young as well as the old. But the piece has so many friends in this city that the mere mention of the time and place is a guarantee of large and delighted audiences.

"Hands Across the Sea" drew a numerous audience at Powers' last night. The play was again received with every sign of approval. The military manoeuvres and gun exercises by the Columbian cadets surpasses any drill ever seen here. It is a beautiful and enjoyable feature. The concluding performance will be given tonight.

The Detroit Free Press yesterday in its criticism of "A Cracker Jack" pronounced it the best farce comedy ever seen in Whitefish theatre. The play, author and company come in also for a full share of praise. It will be at the Grand Sunday evening.

Beginning today there will be matinees the remainder of the week. The very excellent specialty bill is attracting a good business.

Condensed Telegrams.

Colonel Hughes, who was found guilty of insubordination by the court martial at Topeka and dishonorably discharged from the Kansas state militia, intends to sue the state for \$2,300. He claims that this amount of pay is due him, as he has never been relieved from active service. A theatrical manager has invited him to make a lecture tour of the country.

The rebel squadron at Rio Janeiro finds itself in a trap. The vessels are unable to leave the harbor because the entrance is blocked by forts manned by troops loyal to Peixoto. The rebels tried to make a landing at Niteroy, a suburb of Rio, but were repulsed with a loss of fifty-one killed and thirty wounded.

It has just come to light that the action of Colonel Weiser when commander-in-chief of the G. A. R. in declaring C. C. Washburn post of Madison the senior post in Wisconsin was reversed by the encampment at Indianapolis. The honor was accorded to the John H. Williams post of Berlin.

Eva Mann, otherwise Mrs. Robert Hamilton, is married again. Her husband is Edward Hilton, and the couple are running a theatrical boarding house in New York.

Henry Ward Marshall is under arrest in Cleveland for the seduction of Sophie Tenney of Syracuse, New York.

World's Fair Notes.

The national commission has adjourned until October 4. The action was rendered necessary by the neglect of the members to attend the meetings and the consequent inability of the commission to transact any business.

Governor McKinley of Ohio and his entire staff of twenty persons will arrive at the Grand Pacific hotel today and remain to participate in the celebration of Ohio day at the exposition on Thursday.

A Japanese fete will be held at the New York building tonight and the Japanese women from the Midway will participate.

ALLY TO THE SWEDES

King Oscar Wants Union With the Triple Alliance.

PROTECTION AGAINST RUSSIA

Czar's Government Believed to Be Abetting the Separatist Move in Norway.

VIENNA, Sept. 12.—The Allgemeine Zeitung declares that Sweden is about to join the triple alliance. It says that King Oscar has been induced to associate himself with the dreadnoughts owing to a conviction that the separatist movement in Norway is chiefly fostered by the Russian government. Four years between Berlin and Stockholm have been proceeding for some time, and the recent visit of Prince Leopold of Prussia to Stockholm was connected with them. The Allgemeine Zeitung suggests that Russia hopes that Norway, on obtaining her independence will concede her a Norwegian port as a coaling station for her Baltic fleet.

DEFIANCE OF WILLIAM.

France is Watching Germany and Abusing England.

PARIS, Sept. 12.—The German army maneuvers in Alsace-Lorraine, when Emperor William, with the crown prince of Italy by his side, uttered the bold defiance to France, that her old provinces would be held forever by the German sword, has stirred up an ugly feeling in the republic. An outlet for this feeling is found in a measure by the city of at least in inveighing against England because of the obstacles the British are throwing in the path of French explorers. The Siamese question is out of the way for only a few weeks, and when it comes up again it is the opinion of political observers that the present strained situation of affairs between the armed nations of Europe will become still more critical.

In the meantime France is preparing to give a rousing reception to the Russian fleet on October 13. That visit may be made to serve as an excellent foil for the ruffled French vanity, and put an end, for the time being at least, of the war feeling. The visit may also have another effect—the floating of a new Russian loan among the French people.

EUROPE IS RESTIVE.

Visit of Russian Fleet at Toulon Means Much.

PARIS, Sept. 12.—The peace of Europe is threatened. England's attitude towards France on the Siamese imbroglio, the German maneuvers at Metz and the prospective visit of Russian warships to this country, mean much to the student of politics and of circumstance. On October 13 a big demonstration will be made by the Russians at Toulon and this is expected materially to aid the French enthusiasm. The enthusiasm which greeted the emperor at Alsace-Lorraine has not pleased Frenchmen. Neither has it served to lesson one whit their desire to repossess their old territory. The visit of the Russians, then, is expected to be the pivot on which certain destinies shall turn.

STRIKERS VOTE TO STAY OUT.

Derbyshire and South Lancashire Miners Refuse to Surrender.

LONDON, Sept. 12.—The question of continuing the coal strike in Derbyshire and South Lancashire was put to vote today. Though it is generally conceded by impartial observers that there is little if any chances of the miners winning the fight, that has now been in progress since July 28, the men themselves think that they will eventually force the mine owners to concede their demands. This was evidenced today by the ballots taken in Derbyshire and South Lancashire, an immense majority of the men voting in favor of continuing the strike.

Havages of Cholera.

LONDON, Sept. 12.—Letters from the Crimea say that cholera is committing terrible ravages. Hundred in the province of Taurida are dying daily. The official figures gave thirty-eight deaths last week, whereas there were more than thirty deaths in two towns alone. The authorities have forbidden the tolling of bells in order not to cause a panic through the frequency of funerals.

Bismarck Improving.

KINGSDOM, Sept. 12.—Notwithstanding the alarmist reports in regard to Prince Bismarck's condition that have been circulated, it can be said that the ex-chancellor is recovering from his recent attack of sickness. His condition is improving daily, slowly of course, but still improving.

China Protests.

BERLIN, Sept. 12.—The foreign office here is informed that the Chinese government is preparing a protest to present at Paris against France's new aggression in Siam and has given orders that the Chinese squadron of ironclads be made ready to sail at a moment's notice.

Gen. De Miribel Dead.

PARIS, Sept. 12.—Gen. de Miribel, chief of the general staff, is dead. In case of a war with Germany he was to have had supreme command of the French army.

WILL REVISE IT.

Important Gathering of Episcopal Clergymen at Newport.

NEWPORT, R. I., Sept. 12.—There will be an important episcopal gathering here on next Saturday. A constitutional commission was appointed at the last session of the general convention of the protestant episcopal church, and it will meet here. The commission consists of the Rt. Rev. Dr. Cox, bishop of western New York; the Rev. Dr. Doane, bishop of Albany; the Rt. Rev. Dr. Potter, bishop of New York; the Rt. Rev. Dr. Paret, bishop of Maryland; the Rt. Rev. Dr. Dudley, bishop of Kentucky, and the Rt. Rev. Dr. Burgess, bishop of Quincy. An equal number of presbyters and laymen will also be present. The commission was appointed to revise the constitution and canons of the church with a request to report the result of their labors at the next general convention. All the distinguished visitors will be heard in the local pulpits next Sunday, and the day will be looked forward to with interest by Episcopalians and others.
